

# Slack Bot for On-call Assistance

Alekya Mujakari

Harsh Kesarwani

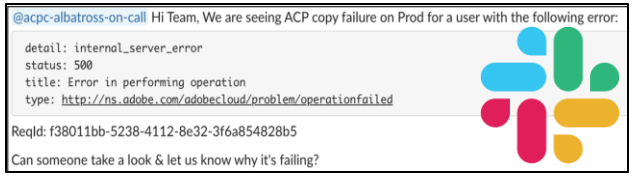

Vijay Kumar

Shikha Rani

# Motivation

Client posts query in slack channel

On-call acknowledges the issue

On-call reaches for the laptop, if away

Open Splunk and search a suitable query

splunk>

Analyse the Splunk logs

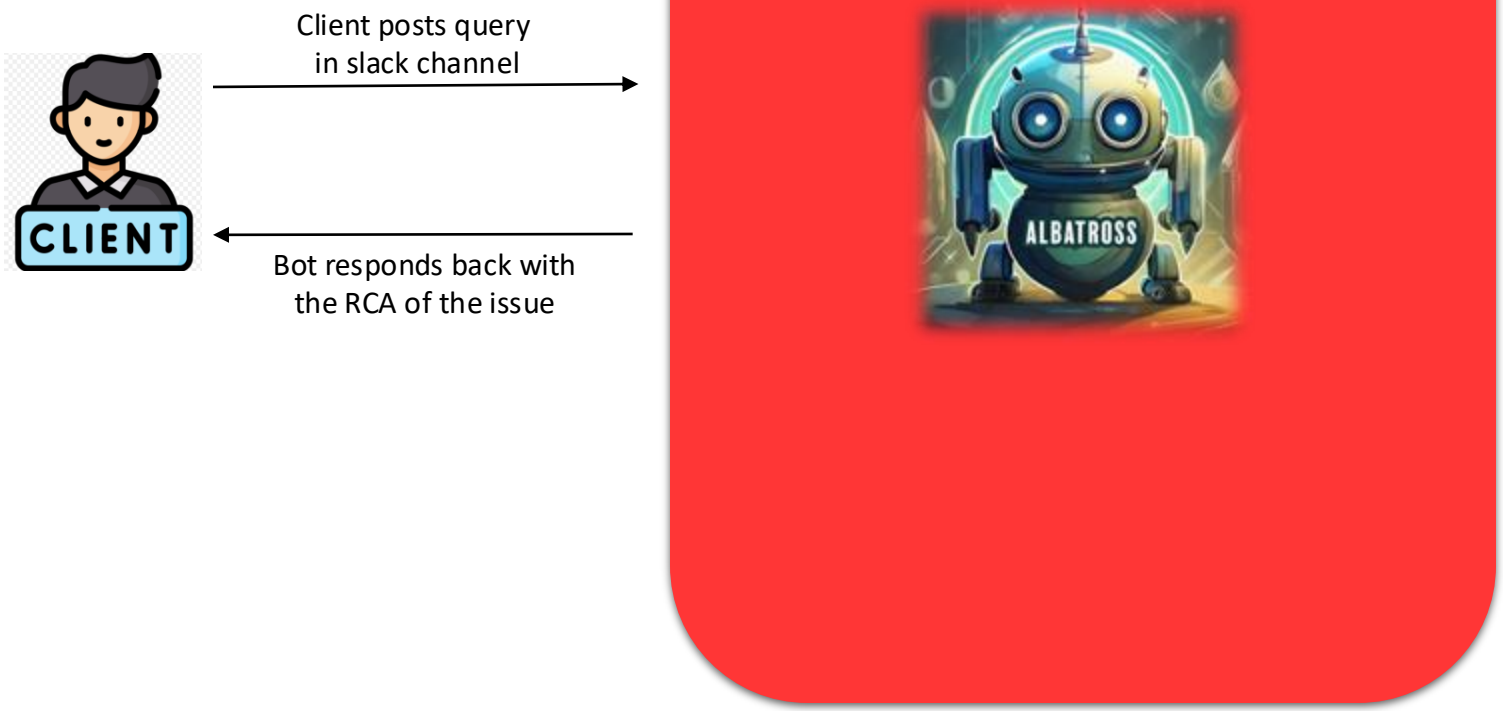

Respond back with the RCA of the issue

ALBATROSS

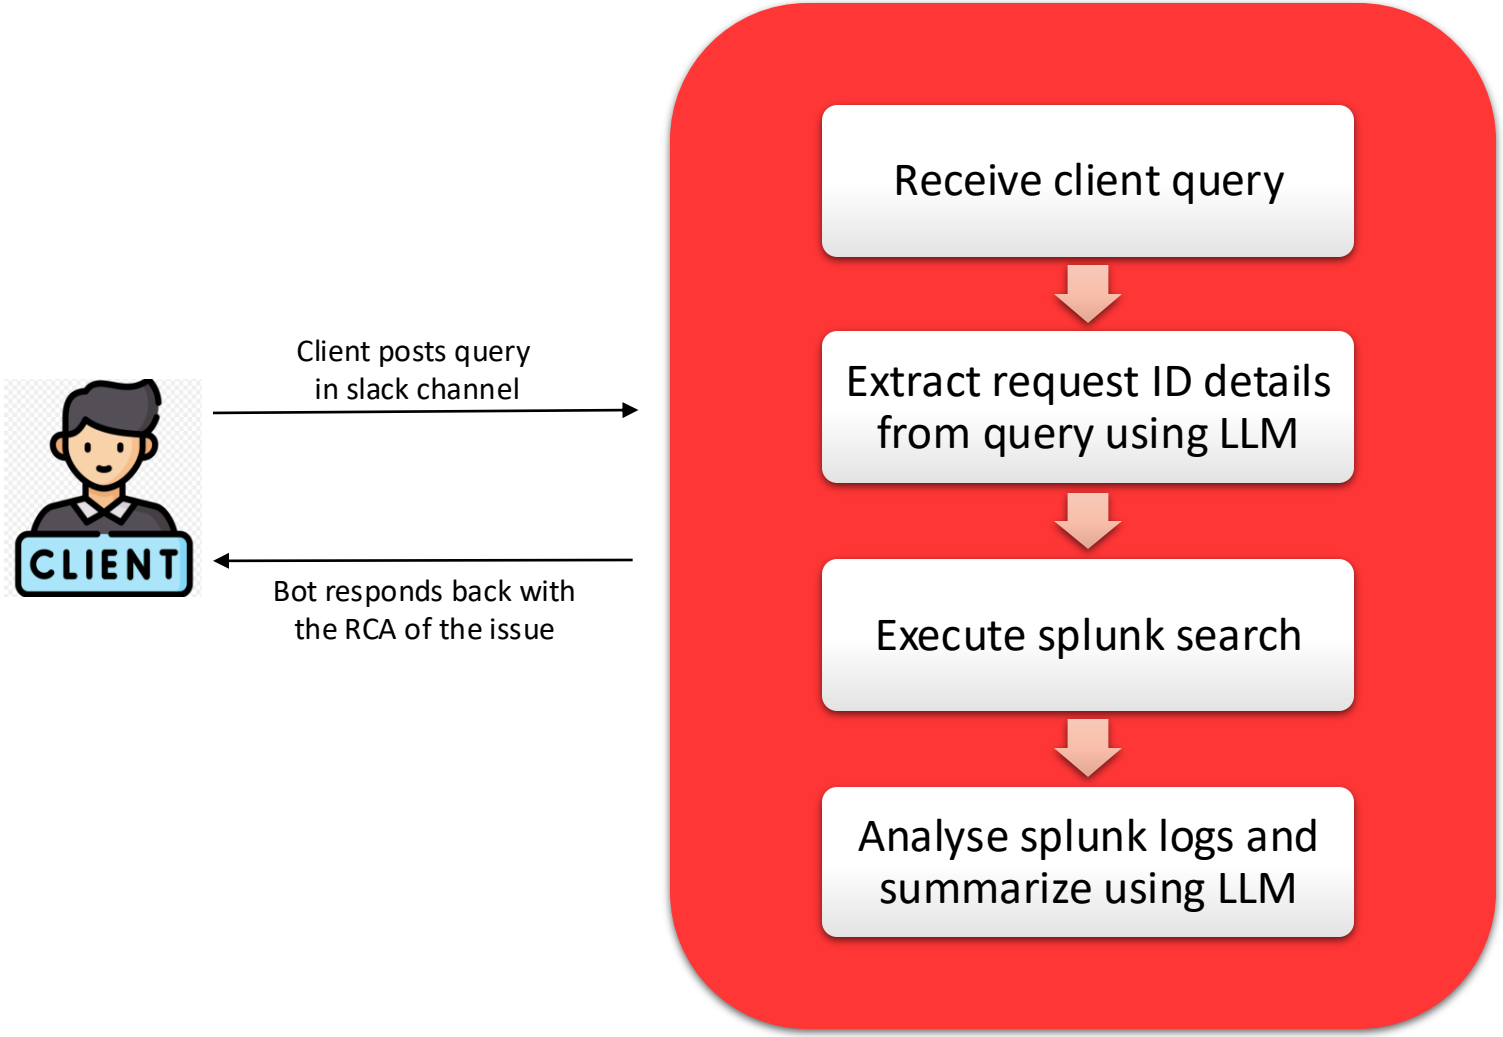

# Demo

# On-call simplified :)

# On-call simplified :)

# Value Add

Time taken by developer to respond with preliminary analysis is reduced

As an on-call, developer need not always be with the laptop even during the off-hours

Client does not need to wait for long to know the initial cause of the issue

# Future Scope

Developer bandwidth for on-call/RTB can be reduced by 50%

Significant improvement in Mean time to respond and resolve (MTTR) for customer queries

As an on-call, developer need not always be with the laptop even during the off-hours
